

The 10 most important reasons for choosing 3F

1. Collective agreements

The trade union and its local branches have collective agreements in all public and almost all private workplaces. Without a collective agreement, you will not be granted overtime pay, labour market pension, the right to negotiate wages, or to choose a trade union representative, and so on. If problems arise, your local branch will assist you.

2. More than one billion great reasons

Each year, we win cases that grant our members more than one billion kroner (DKK) in compensation. This amounts to more than what is paid in union dues.

3. We assist you with education

If you need education or supplementary training, have a chat with us. You will receive personal and individualised guidance related to education and career planning. You can also get specialised assistance if you experience reading difficulties. In conjunction with other leading trade unions, e.g. Danish Metalworkers' Union and HK, 3F has contributed to the establishment of post-secondary education and vocational training.

4. The best unemployment insurance fund in Denmark

If you are unemployed, you will receive a professional standard of service in

one of our 65 local branches. Through www.3f.dk, you can obtain unemployment benefits and register for post-employment benefits and salary insurance as well.

5. Individualised guidance and case management

We conduct legal cases regarding all questions related to the labour market. Through www.3f.dk, you can obtain legal advice regarding other matters as well, with ease and without charge.

6. Your work should not make you ill

When it comes to occupational health and safety, we serve as your watchdog. Our 4,500 work environment representatives operate on behalf of you and your colleagues.

7. Income during strike action and industrial disputes

You are granted strike relief when you participate in legal strike action or industrial disputes.

8. Discounts when you shop

Use your membership card when you shop to automatically receive various discounts. These include, but are not limited to, discounts in more than 1,300 shops across the country. Go to www.3f.dk or www.loplus.dk to view the complete list.

9. Our members decide

In 3F, we are a democracy. Our members decide whether or not they are content with the results of their collective agreement. It is you and the other members at your local branch's general assembly who decide on activities, as well as who should manage your branch.

10. All this and much more for less than 25 kroner (DKK)

For less than 25 kroner (DKK) a day, you will be professionally secured and covered by group life insurance. Find your local branch at www.3f.dk or give us a call on 70 300 300.

You can keep up with current events concerning the labour market through our trade magazine "Fagbladet 3F", our online newsletter, and on www.3f.dk
